DETAILED ACTION

STATUS OF THE APPLICATION

The Examiner acknowledges Applicants' Amendments to the claims and Remarks, submitted to the Office on 6 September 2011 in the matter of U.S. Application N° 10/551,901.

Said documents are entered on the record. It is further acknowledged that:

Claims 1, 7 and 10-23 are pending, where claims 14-23 were withdrawn from consideration.

No claims have been added or cancelled.

Claims 1 and 13 have been amended as proposed by the Examiners in the interview of 29 July 2011.

Per the following, claims 1, 7 and 10-23 are now pending allowance.

WITHDRAWN OBJECTION/REJECTIONS

Objection to the Claims

Applicants' amendment to claim 1 as proposed during the aforementioned interview is sufficient in overcoming the objection. Said objection is **withdrawn**.

Rejection under 35 USC 112

Applicants' amendment to claim 1 as proposed during the aforementioned interview is sufficient in overcoming the indefiniteness rejection previously made under the second paragraph of 35 USC 112. The rejection is **withdrawn**.

Art Unit: 1615

Rejections under 35 USC 103(a)

Applicants' remarks, render moot the obviousness rejection made to claims 1, 7 and 10-13, as being unpatentable over the combined teachings of Akiyama et al., Yanaki et al. and Iwahashi et al. During the aforementioned interview, Applicants presented experimental results which provide clear support for their position that the product-by-process limitations instantly recited in claim 1 produce a more soluble composition. As such, said rejection be sustained and is **withdrawn**.

REASONS FOR ALLOWANCE

The following is the Examiner's statement of reasons for allowance:

The closest prior art of Akiyama et al., Yanaki et al. and Iwahashi et al., while apparently teaching and suggesting a product similar in composition to that which is claimed by Applicants, does not disclose the instantly claimed product-by-process limitations. Applicants have further produced experimental data lending support to the criticality of said method steps, namely that the product-by-process limitations result in a composition having increased solubility for poorly, water soluble active ingredients. As such, that which was deemed to be the closest prior art, is no longer considered to read on the instant invention.

Thus, Applicants have sufficiently distinguished the instant invention such that a search of the prior art has elicited no results which either anticipate or render obvious (e.g., by way of teaching or suggesting), the instantly amended invention. **This is to say that the instant pending claims are immediately free and clear of the prior art.**

ELECTION/RESTRICTIONS

Claims 1, 7 and 10-13 are free of the prior art. Claims 14-23, previously withdrawn from consideration as a result of a restriction requirement, require all of the limitations of the allowable claim 1. Pursuant to the procedures set forth in MPEP §821.04(a), **the restriction requirement between the elected and non-elected inventions, as set forth in the Office action mailed on 25 February 2008, is hereby withdrawn** and claims 14-23 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, Applicants are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP §804.01.

Any comments considered necessary by Applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Jeffrey T. Palenik whose telephone number is (571) 270-1966. The Examiner can normally be reached on 7:30 am - 5:00 pm; M-F (EST).
